

## Villa close to the center of Frankfurt in a modern and luxury ambience

### Location

The villa is located in Bad Vilbel, a spa town in Hesse famous for its many wonderful mineral water springs and its pleasant atmosphere.

“Heilsberg” (Bad Vilbel) is a lovely and peaceful living area close to Frankfurt (appr. 4 km) and Frankfurt center (appr. 7 km to the Frankfurt downtown area). The house is located opposite of a marvelous small park, containing a plethora of tall trees, overlooking the Bad Vilbel inner city with a great and relaxing walking path that stretches through a small forest for several kilometers. The area is great for adults who are seeking a tranquil living space, but is also amazing for children and teenagers, due to its close proximity to Frankfurt, allowing for access to anything one of the greatest cities in Germany has to offer.

Bad Vilbel is home to a large variety of schools, like the The European School, and is located close to several other international schools, such as the Metropolitan School Frankfurt MSF, the Frankfurt International School FIS and the International School Frankfurt ISF, as well as many local schools too.

In walking distance there is a bus stop with a direct connection to the Frankfurt inner city, a pharmacy, multiple doctors, grocery stores, a butcher, a bakery, a wine store, hair dressers, sporting activities, a hotel, kindergarten and a local school. A larger shopping area and S-Bahn (metro) station is located downtown Bad Vilbel, which can also be reached by the bus with ease. There is a beautiful golf course ([www.bvgc.de](http://www.bvgc.de)) with ponds and lakes reaching 40,000 m<sup>2</sup> as well.

## Interior

The interior distinguishes itself from others in its class with an open and bright atmosphere combined with a modern style and a friendly and inviting feel.

- Welcoming entrance hall that extends nicely into an open living and dining room
- Loft-esque large floor tiles
- Elegant bathrooms with large size shower cubicles made of glass
- Central alarm system
- Modern and easy-to-use heating system
- Additional electric floor heating in many rooms
- Easy move-in due to pre-installed electric lighting and curtain rails

Pictured below is the dining room with garden view (only illustrative, furniture and decoration not included).

Pictured below shows the modern kitchen layout with high-quality equipment and a larger kitchen island that features a large electric stove and a top-of-the-line stove ventilation system built into the counter.

Also, a view from the office/ bedroom (upper floor).

## Property

The entire estate is approximately 436 m<sup>2</sup> in total, with its own access route and a lovely garden featuring beautiful greenery and enough room on the terrace to move around freely, especially beneficial for those who want to enjoy a lovely outdoor lunch.

- Backyard located towards the south for maximum sun coverage
- Terrace area of 36.9 m<sup>2</sup>
- Robotic lawn mower
- Larger entrance area with easy access
- Modern shed (3,15m x 2,75m) for bicycles, garden furniture, tools, etc.
- Parking space on the property for 2 cars including carport of approximately 8m length
